

APPLICATION GUIDE FOR INDOOR FEEDING SCHEDULE

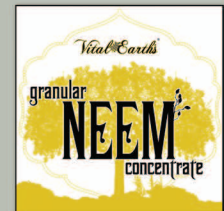

Here at Vital Earth's® we know everyone has their own style of gardening. Weather you like to top dress, make compost teas, or just water in liquid nutrients we've got you covered. Let us show you how easy organics can be with our simple recipe, or how amazing your garden can be using the full line of Vital Earth's® products in our advanced recipe. Either way we think you will see why we are truly the world's best in organics.

Simple Recipe	Cuttings Transplanting	Vegitative Growth			Fruiting/Flowering Period							
		Week 1	Week 2	Week 3	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8
Mix with Water	(All measurements per gallon of water)	1 Tsp = 5ml 1 Tbsp = 15ml										
Vital Earth's® PHC Biopak®	5ml	-	-	-	5ml	-	-	5ml	-	-	5ml	-
Vital Earth's® 4-3-4 Liquid Grow	-	15ml	15ml	20ml	10ml	10ml	5ml	-	-	-	-	-
Vital Earth's® 2-5-0 Liquid Bloom	-	-	-	-	5ml	10ml	15ml	25ml	25ml	30ml	-	-
Vital Earth's® 1-1-17 Kelp Extract	2ml	-	-	-	5ml	-	-	5ml	5ml	5ml	-	-
Vital Earth's® Mycorrhizal 0-0-3-0.16	5ml	-	-	-	5ml	-	-	5ml	-	-	-	-

* Plants that take longer then 8 weeks to mature can continue to be fertilized past the 6th week of this feeding schedule accordingly.

Vital Earth's® Powdered Glacial Rock	-	-	30ml	-	-	60ml	-	-	-	-	-	-	
Tea Applications	(All measurements per gallon of water. Aerate and agitate water for 12-24 hours with ingredients in cloth mesh bag. Stir vigorously and water immediately. Use only one tea application per week as a substitute for the nutrients mixed with water.)												
Vital Earth's® Mega Worm®	-	15ml	15ml	15ml	15ml	15ml	30ml	30ml	30ml	30ml	-	-	
Vital Earth's® Compost OMRI™	-	15ml	15ml	15ml	30ml	30ml	30ml	30ml	30ml	30ml	-	-	
Vital Earth's® Guano Mix 7-7-2	-	-	15ml	-	-	-	-	-	-	-	-	-	
Vital Earth's® Rose & Flower Mix 5-9-4	-	-	-	-	15ml	-	-	-	-	-	-	-	
Vital Earth's® Bloom Mix 0-9-0	-	-	-	-	-	-	15ml	-	30ml	-	-	-	
Vital Earth's® 1-1-17 Kelp Extract	-	5ml	5ml	5ml	5ml	5ml	5ml	5ml	5ml	5ml	-	-	

*Use Vital Earth's® Neem every week up to week 3 of flower. Mix 1-2 tsp per gallon, wait 10 minutes, shake well and spray

NOTE:

1. BioPak to be used by itself and in plain water only
2. Mycorrhizal to be applied in water in a mesh bag and a top dress. (the carrier doesn't dissolve fully in water, can clog pumps, etc.)
